

The  
Corner  
Sheffield  
South Yorkshire

### What is The Family & Carer Service?

The Corner now has a Families and Communities Development Worker who will provide information and support for parents and carers who are affected by their child's substance misuse. The Service offered will be flexible, non-judgmental, confidential and accessible.

The support offered will be person-centred; meaning that it will be led by the needs of parents and carers. We aim to provide information, support and signposting to relevant services to address the specific needs of the parents and carers, both practical and emotional. We ensure that affected parents and carers have access to a confidential platform to reflect their own needs and wellbeing.

### What Do We Offer?

One-to-one person-centred interventions which are led by the needs of the parent/carer. This can include advice and information on drugs, practical advice around parenting, harm reduction advice supporting you to keep you child safe and signposting to services.

Group work sessions for Parents and Carers which provide advice and information around basic drugs awareness and practical advice around parenting. These sessions are run from the Corner and are tailored to meet the needs of each individual.

We offer telephone advice and information to Parents and Carers. Call for more information and ask to speak to one of our workers – 0114 275 2051/07760559108
